at the Wingate. What battle did HE lose?With all this talk of Pi's and crossovers and 4 ohm 2226's I wonder if I should just bring myself, my Paramours and new $8 super cables?And I now have another $400 in the kitty after the sale of my HGA Silver Lace replaced by Kevin Haskins 'Superlative' I.C.'s and my Golden Double Helix replaced by the aforementioned wonders. Which are either the bargain of all time or a major POS, can't decide.
