Think it would be alright to use that inverted dado, or rabbit joint, but in the upper piece only do 1 cut, leaves a little more meat on the board and 1 less cut to do. Like

This: _____|xxxxx|xxxxxx____|xxxxxe|ooo||_____|ooo|_____
_____|ooooooooo||ooooooooo||ooooooooo||ooooooooo|Also, with those screws from the inside, would you recommend screwing them while the glue was drying or afterward?
