Hi Sam,Why? i`m interested in the PI, so why not talk about them.Like i said i got two kappa lf`s where i`d like to build new kabinets for, and i`m not sure what type suits best for these drivers.Maybe you could tell me what`s best, and maybe you like to give your opinion to my message.In the pro audio directory they don`t talk lot about speakers. and certainly not about eminence and rcf drivers.I finaly found a place where i can talk about my passion!Sorry if i look stubburn!
