So, I bought 4 and they should be arriving soon. I decided not cancel my accidental second order of 2. How often do ya get a deal like this.Anyway, I'll have 4 15" M252-8B2's. Now I just have to find something to do with them. Freddy, how do you think one would fair in a Karlson?These don't look like they are tuned that low... One with one of those motorolla twin bullet piezo might make a killer guitar cab?Any ideas will be greatly appreciated.Thanks guys.4Pisintheworksgonnaprobablyusebirchply
