Hey Garland! Thanks for passing on the P Joppa tip. I now have the TFA-2004 trannies on my Paramours, so I can't use it. But we both seem to be experiencing a slight loss of top end in our Paramour/Pi combos... a function of the room in both cases I am certain. And there are other issues. I recently changed the isolation under my TT, and have seen a dramatic return of HF. So you never know...Patrick
