Amused to Death is played weekly! Pepper the cattle dog enjoys anything with barking, but you should see her come to "full attack alert" when a phantom dog seems to be barking in the room with us. Her nape stands up and she acts ten foot tall and bulletproof. Oh man, that ferrari just drove thru my living room wall...what generational gap? Dark Side of the Moon was a new vinyl release when I was in school. Dot.com daughter stole my copy when she moved to the left coast(SF). PJHarvey was what she left in my CD after the last visit. I kept my two copies of DSOTM locked up this time! Oh yeah, the coolest record store was in the Haight up the street from her apartment...Amoeba Records? Sam
