You could always use a 90 degree fitting on your vent if you had too...or you could get one of those gucci flexible ones the boom cars guys use to put 18" drivers in a 1 cubic foot box for their Honda civics....(just a touch of animosity there....I think it should be legal to carry a box of hand grenades in your vehicle so you could toss one in the open window of every boom car one comes across so they could experience one very loud very final BOOM!!!!!!!!!! heheheheheheh)Kelly(I really hate those guys)
