Hi Wayne & Guys,I, as a young man, once wrote Mr.Klipsch and asked him about his horn speakers. He sent me a package of info and a half dozen "bullshit" buttons. Now I don't know about you guys, but in this day and age of pseudo-science, 'platinum eared reviewers' and outrageous ad claims, I still wish I had saved a couple of those yellow buttons. Wayne, let's revive those little yellow pins. Cheers,Steve
