Using your numbers,  $Fts=28$ ,  $Vas=12.49$  and  $Qts=0.24$ , PiAlign values are  $Frd=28$ ,  $Vad=12.49$  and  $Qd=4.17$ . PiAlign suggests making a 3 cubic foot box tuned to 44Hz. For a bass-reflex cabinet, actual dimensions are 26" x 18" x 12" and with a rectangular port having inside dimensions of 3 1/2" x 6 3/8" x 5 5/8" long.
