Wayne sure does provide it. So does Doc B. Don't blame Doc for any shipping delays; blame all the happy customers who ordered before you--just as I blame you for depleting Wayne's supply of woofers for 2pi's before I ordered mine on Monday. :) These occasional delays are unavoidable for such specialty suppliers. Thanks to Wayne, Doc, Ron, Ned, and all the other very hard-working proprietors of the small businesses which make our hobby so much more enjoyable.
