Mikebake, I've been eyeing the LeAmps for a while. You said you use QSC for the low end, but how are the LeAmps by themselves. I've used the Bottlehead Paramours and the ASL Wave 8s, but they just don't seem to have the low end "grunt" that I'd like when I listen to electronica (no surprise). I was figuring that at $500 for the pair they might be right up my alley.Kevin
