Fresno,A post a few lines down by ToFo reminded me that vinyl or nagahide is cool too, with the chrome corner gards. Now some folks would say thats inaproprate for the home listening room. What would be cooler than a set of speakers looking like vintage 60's Fender Bassmaster or Reverb amps (or speaker cabs). As I recall those amps didn't have the chrome corner gards. Beige vinyl with the old Fender grill cloth.Ron :^)
