Excellent!Drop me a line, offline if you like, as to the total including shipping to 06033, and how I can make payment. I'm rarin' to get started, now!Hmmmm . . . What driver will suit Bill's horns and play nicely with the 1602's in a two way system? 2426's? TD2001's (Gulp!) I really don't want to turn this into a 3-way circus if I can help it.

Keep your ears and your mind open.
