You're in for a treat! I'm listening to Django on new Paramours and PiTwo's right now, and it's a marriage made in heaven. I was wondering how they'd sound after Adcom pre and power amps, and there's no comparison at all. Incredible bass, definition, and imaging.Wayne, I'm waiting for you to get your Paramours up and running, cause I figure after a few weeks you'll be able to recommend the ultimate Pi setup for them. Also, I don't feel any need to upgrade right now-enjoying it too much.
