Wayne,Would you be willing to share your crossover schemo and values for such a beast, since it seems you worked out just what I'm chasing: TAD 1602 xo @ 300hz to JBL 2123 xo @ 1.2-2.4khz to TAD 2001 in Martinelli classic horn?(Early recos were for 3k when I was going with the Eminence driver, but the 2001 sounds good run pretty low, and I'm using SET amps.)Thanks!

Keep your ears and your mind open.
