Subject: Re: Run 'em ported Posted by Scholl on Wed, 04 Dec 2002 18:50:45 GMT View Forum Message <> Reply to Message

Thanks, for the quick reply. The intent of the design is to be used with a subwoofer with no crossover on the Alpha 8. A closed box reduces cone motion below rolloff and provides a nice rolloff. The box volume is chosen due to a nice available box from Madisound. Thanks again
