HA! Thanks Mike! I hadn't actually thought it that outrageous until reading your post. Problem is I have this extra set of woofers and need to do something with them. Have any Altec 811B's and 902's sitting around you want to trade for a pair of 2226J woofers? I'll have to see what develops, I can either run a single 2226 in a corner cabinet or run a pair in a reflex cabinet. Sensitivity is the same either way.
