Wayne and TillE, Thanks to both of you. I went to the url site and when I get the $29.95 registration fee, I will get it downloaded. Who has the "Spice" program????? I thought it was on the Pi-speaker website, but did not see it. Wayne, did you get your Paramours done yet??? You should check out the DIY "Joplin" push-pull 2A3 triode amp. It looks interesting, but I have had no hard feedback on it yet. Will check with TillE, since he bought the "Ella". Later, Ron
