Hello All!!I'm expecting to receive a pair of 2 Pi's in a few weeks from Wayne.I'm looking for a pair of stands large enough for the 2 Pi that doesn't cost an arm and a leg. Most of the stands I've seen have a top plate of 6" X 6", the largest being 6" X 8". Neither seems to be large enough for the 15" X 10" base of the 2 Pi.What are you 2 Pi owners using? Do you just place them on the floor?Thanks for the help.
