Hello Bill,I'd like to thank you for the advice. I've just ran out a picked up some 400 grit 3M sand paper, super fine steel wool, Minwax wipe on poly clear gloss (as Wayne has suggested), staining cloth and tack cloth. As a non diy type, I'm completely lost and your suggestions are invaluable.Also, what brand of paste wax should I get? As this would make it easier for to stop by Lowe's tomorrow to pick up.Thanks again,Tuan
