Dear Santa,I'd like to have a new router to replace the one that went belly up a while back. I'd also like to have a new battery powered screwdriver to replace the one that finally died after about 15 years of faithful service. It's hard to build speakers without these.A quad of nice KT-88's would be real nice as well. I'll leave the brand recommendation to your best judgement.Been good (mostly)
Dave
