Dear Santa,I would like to have a new Jasper jig so as not to mess up any new speaker projects in the future.  Also, please could I have the remaining parts (or just leave money) to help me finish my Darling amp?  My kids seemed to have taken all of my money.If this is too hard, could I please have a Mustang GT in dark red with black racing stripes so I don't have to beg my wife to drive her stang?Being as good as I can.....Shane
