Hi All,I would just like to say I have Finally finished the design for the 2" format horns. I have had some request for these but the whole project has been behind shcedule. I'm really happy the time has come to have these in the line up with the other two horns. These are considerably larger than the standard horn. Measurements for this horn are 21" x 10". I will have more info on the webpage shortly regarding cut off and response. Thank you, for all your support, and Wayne for providing us all this forum.Bill
