It's digital day for the Houston Audio Society on Feb 10th. If the thought of music from a computer hard drive makes you feel all yucky, better stay away, but if you want to hear how good it can be with uncompressed music files and the right equipment, this is your opportunity! The meeting is from 10 to noon, but earlybirds are welcome anytime after nine am. We will compare a Bolder Cable Company modded Squeezebox, an Anthony Padilla modded Transporter, and an Arcam FMJ CD player. Visitors are always welcome at our meetings. See the link for directions.
