Hi Sam,Residential Pickup can be arranged - the caveat is Freight Carriers impose a Residential Pickup and or Residential Delivery surcharge.In the near future we will have negotiated rates that include a lesser RP and RD surcharge.You should consider utilizing pallets given the dims 34W X 20D X 30T. Anything much less in density may prove too costly to utilize a pallet.Perhaps there is a vendor in your area that sells used pallets that you can hand pick through which may also reduce overall landed cost.I appreciate your inquiry and if we may be of service please advise.Chuck
