Hi Sam, Residential Pickup can be arranged - the caveat is Freight Carriers impose a Residential Pickup and or Residential Delivery surcharge. In the near future we will have negotiated rates that include a lesser RP and RD surcharge. You should consider utilizing pallets given the dims 34W X 20D X 30T. Anything much less in density may prove too costly to utilize a pallet. Perhaps there is a vendor in your area that sells used pallets that you can hand pick through which may also reduce overall landed cost. I appreciate your inquiry and if we may be of service please advise. Chuck
