The Houston Audio Society will meet at Houston's oldest high end audio store, Audio Concepts, to hear the Vandersteen speakers. Audio Concepts displays the complete line, and we will focus our listening on the 5A, the Quattro, and the 3 Signature. The meeting is this Saturday, March 10th, from 10 AM to Noon, and we'll meet for lunch at a nearby restaurant afterward. Many high end audio stores are either closing their doors or focusing entirely on HT, so it's a privilege to hear a manufacturer's complete line of speakers, set up properly, in one place. Vandersteen speakers are widely regarded as one of the best values in high end audio.No reservations are required and all are invited to join us. See the link below for meeting information.
