Subject: Pi Speakers Crossover Posted by Adrian Mack on Fri, 09 May 2003 21:54:30 GMT View Forum Message <> Reply to Message

Hey Wayne.A while ago you sent me by email the schematics for the Pi Speakers crossover, which has options of 500, 600, 800, and 1600Hz xover freq. Preferably, I would like to have a 1KHz xover freq. Is there any way I can modify your xover so it does this?Thanks!Adrian
