I have discovered some Hartley speakers 220ms, 218ms and DT/8 tweetersthe cones are white but almost translucent ,the frames are handcast aluminum the magnets are signed england the tag reads Hartley Products HO-HO-Kus NJ.I know these speakers are rare and I was wondering if anyone has knowledge of anyone that can repair them,one of the speakers scratches as the cone moves so it needs to be realigned,the surrounds are perfect and the cones beautiful,these speakers are a work of art,does anyone have any info on these Hartleys.
