Hey Wayne, and everyone else! Sorry I'm never around! Been very, very busy lately. I almost have my car system done, though! Check it out: <http://www.sounddomain.com/id/atomicfusion> I'm sticking with the true spirit of horns, for my high frequency anyway... :PI had a question for ya Wayne. Know any good sources for Peavy CH-3 horn lenses online? There is a local dealer in town, but they are INCREDIBLY bad, and it takes like 2-3 months just to get a pair of the lenses shipped in. Do you know anywhere? Better yet, can I get them through you? Adam
