Oh, wow, cool! George Augspurger is a smart guy and I expect a software product that implements his design ideas would be good. I did a quick search of Old Colony and found they also publish books from Bill Fitzmaurice and Charles Hansen, both of whom are very active in audio discussion groups and the DIY community in general. They've also distributed material from Bruce Rozenblit, Vance Dickson, Joseph D'Appolito, David Weems, Robert Bullock and Robert White, among others. So Old Colony seems like a pretty cool publisher.
