Hey Wayne,I sure had searched hard through them! In fact, I even saved a very wide range of links from browsing the this forum on topics like this after many rigours (and VERY LONG!) hours of searches, and have them all sorted out into seperate subcatergories in my favorites menu! Very interesting topics on this forum, these questions were just some of the specifics that I either missed or couldn't pick up in the posts I've seen. Cheers - Adrian
