Subject: Re: 511B update #3 Major Improvement! Posted by wunhuanglo on Sun, 29 Jun 2003 20:35:06 GMT View Forum Message <> Reply to Message

Good post. Thanks. But I do have a question and an observation: The question is: is there enough room inside the rear cover to keep the Dynamat and felt combo from touching the diaphragm? Seems awful crowded in there. The observation is: Steve Schell suggests removing the rear cover entirely. Haven't tried it myself: I figure with three teenagers and A7's a crushed diaphragm would be the almost immediate result, but you might think about it.
