I'm looking to sale my 2Pi and Wayne has graciously allowed me to post it here. I got the pair from wayne a little over 6 months ago. Anyways, I'd prefer someone local to the nashville area since they are quite large. I do have the original box/packaging if they need to be shipped. I'll need to get \$250 for them plus shipping, but as I've said, priority would go to a buyer who can pick them up. At \$250 for a factory built pair, you know this is a great deal.
