This one shows the components apart. The box is 2.2 cu ft, 4" dia port 7.5" long for 40 hz tuning after subtracting for bracing, port, and driver. http://community.webshots.com/s/image5/4/78/84/81747884yOCMmP_ph.jpg http://community.webshots.com/s/image5/6/16/31/81761631SRHOBX_ph.jpg Two more wet sand and poly coats and they're ready! I didn't edge-band the plywood edges of the tops and bottoms and regret it already - maybe fix it later. John
