Thanks for your comments on the new site. I was in a rush to get it out, so I've still got a lot of work to do - Things like including images on the shopping cart so you can see what you're buying. But it is an improvement, having a more current "look and feel." And the best thing is the prices. I've got 'em all listed better than the other large distributors. In fact, until we got around to updating our prices recently, we were cheating ourselves pretty badly. Now we're more in line with the market, but still less expensive than the other distributors.
