HI everyone,I am planning to bring the DCA 5.5 drivers since I would like folks to hear them, and Skip has kindly agreed to let me use the source & his room for a few hours. Now I need some kindly soul to donate a 10-20 watt tube amp for those few hours. Let me know if you can do so. I just don't want to have to rip one of my tube amps out of an exisiting system. thanks!-akhilesh
