Subject: Eminence Magnum 15-LF - Anybody tried it?

Hi:I was wondering if anybody's tried the Magnum 15LF. BassBox say F3 at 37 Hz in a 7 ft^3 box. Looks pretty flat, with a broad hump from 500 to 1000 KHz. I'm thinking it looks good for a "4Pi" two-way XO at 800 to a JBL 2426. Any opinions?TIACharlie
