I'm looking back through my stuff now; It looks like I have all this stuff on diskette, the old floppy kind. I've got it on 5 1/4" and 8", no kidding. So now I'll need to find something to read those. :-)
Is the "Mcleodusa.net" E-Mail address I have for you still current? If so, I'll send to that address. I'll also put the hint files on the Zork page on the Parham Data web site. I don't think the help files will "fit" in your Yahoo account, but maybe so.
