Hi Wayne! Ah yes. I had forgotten about that one. I still have a hard copy tucked away in my folder of goodies. Most of them, other than a few JBL items and my Klipsch "Dope from Hope" pieces are long gone, one of the concessions to 17 years of marriage. JBL reuses this material enough that I had forgotten the original, more detailed discussion. Thanks for reminding me and providing a link to the .pdf. My paper is getting a bit yellow now. Hope you're not still up like I am. Eyes are drooping just a little. Dan
