Unfortunately, I'm gonna have to skip this year. A good friend of mine who was the bass player in our band is getting married back in Kansas Memorial day weekend and I just received the invite this last weekend. It was a spur of the moment decision for them. I cannot afford to make both trips and close friends will have to trump audio this time. So please everyone take lots of pics, maybe even video the presentations for viewing online, and take notes on which music to start buying!!!!
