Well, I am etats unisian but I share a birthyear with this lovely drink. I think I will make some this weekend. Thanks for reminding me.A warning to the uninitiated, Where large cups are the vessel of choice, this is a sneaky drink and can smash you as it is very drinkable. The up side is they have never given me a hangover(must be those sneaky clams), your mileage may vary.on second thought the warning may serve better as a helpful hint : )Make em strong and serve em tall!Thomas Fowler
