I drove 10 hours to pick up Bill E's damaged 4 Pi theatre cabinets Saturday. When my wife saw them - she PALED - the veneer is peeling off everywhere - they look like they were made from a birch tree with a disease :) . They are going to sound beautiful - just what to do about the exterior now. Do people really spend that much time LOOKING at their speakers ? regardscraig.ps. at least my wife has a great story to tell all her friends this week.
