I was a little disappointed I didn't get to spend any of the Andrew Jacksons I brought along. Not even LPs or CDs. I thought there was hope when I saw the parts table at Audio Note Kits but it was a "static display". We need to reach out to vendors like Antique Audio, Handmade Electronics, BOI, E-Bay LP sellers, Electra-print and Magnequest, Sonicraft, etc., etc. I'll put some of those Jacksons, 5 (hah!) where my mouth is and pony up \$100 to start a kitty for some direct mail if someone else will do the work. Just tell me where to Paypal it.
