This is The ALE Incenc speaker. Incredible isn't it? Here is another picture of it. Of course the idea for the sub was prompted by this. The original is far too large for most applications so I modified it so it can be used as a single woofer or have other drivers built on top. The Incenc only uses a 15" woofer where the version I did was designed around a Pialigned 18" driver. Some 15" versions came about later too.
