Subject: Lone Star Bottleheads Pictures Online Posted by FredT on Sun, 20 May 2007 11:56:31 GMT View Forum Message <> Reply to Message

Pictures from our May 19th meeting are posted at the link below. It was a small meeting compared to some past ones, with about a dozen bottleheds there. We heard Paul O'Neal's great new "Facet" speakers, and we did an A/B comparison of the Lite Audio DAC-60 and the Citypulse DAC. Also heard some great vinly on Luther's main system with Gene's Tercel phono pre from Juicymusic.com - it's amazing how good a true high end analog system can sound!
