Just wondering what's new in Wayne's world. Any new products in the works? Any new plans in mind, Wayne? Not trying to be nosey, just interested in what's in the works at Pi Speakers. Does anyone here at The Table have anything in particular they would like to see Wayne start to develop and market? By the way, how about sending a pair of Pi Theater 4s to Colin Flood at Enjoythemusic.com for review? I would love to see Pi Speakers get more press.
