Hi Wayne. the kit arrived safely. Thank you! When mounting both of the drivers should I use some sort of gasket ie rubber or weatherseal, to ensure air tightness? By the way I've just treated myself to a Jolida tube CD player and a Meixing AC34 tube amp from Hong Kong. I'm very interested to hear how all of this will sound with the 2Pi towers. Also if anyone wants advice on ordering equipment direct from Hong Kong then email me at prbunyan@shaw.ca. Best Peter B.
