Hi Wayne. the kit arrived safely. Thank you! When mounting both of the drivers should I use some sort of gasket ie rubber or weatherseal, to ensure air tightness? By the way I`ve just treated myself to a Jolida tube CD player and a Meixing AC34 tube amp from Hong Kong. I`m very interested to hear how all of this will sound with the 2Pi towers. Also if anyone wants advice on ordering equipment direct from Hong Kong then email me at [prbunyan@shaw.ca](mailto:prbunyan@shaw.ca). Best Peter B.
