Subject: Re: BETA 12LTA in a PiAlign enclosure Posted by HigherFi on Fri, 27 Feb 2004 10:14:24 GMT View Forum Message <> Reply to Message

If I use 3 1.5" vents 3.5 " long I still get the correct frequency for the ports and a vent mach of 0.14 which should give much less wind noise from the vent. The enclosure would be 18" wide by 28" tall and 11.5" deep using 3/4" plwood.
